For our February demonstration we will be welcoming Jess Pritchard, Jess will be giving a demonstration of how to draw an animal eye and fur technique.

Jess is a multi-award winning wildlife & conservation artist who works solely in pencil. From a young age she had a passion for both art and wildlife so naturally combined the two to capture the beauty of the world, allowing her collectors to hang them on the wall to admire.

She began her professional art career seven years ago and since then has taken part in many exhibitions up and down the country including those held in the Mall Galleries, London's Oxo Tower and a solo exhibition at Worcester Cathedral.
